

Real-Time Labor Tracking

Punch **IN** under tasks throughout the day.

TIME workflow #1

Results		
Task 1	2.65 hrs.	14 Units
Task 2	4.23 hrs.	32 Units
Task 3	1.42 hrs.	10 Units
Total Hrs.	8.30 hrs.	

Pros: Most accurate time/labor tracking and most accurate task tracking. Takes <5 seconds.

Cons: Requires employees (or supervisors) to punch IN, change tasks, punch OUT as it happens.
