TIME

TIME ENTRY (continued)

Time entry is available on Apple or Android mobile apps, or by logging into the web-based Control Center.

EMPLOYEE PRIVILEGES

Employees can have unique privilege and permission levels on the mobile device per employee and/or per user role.

GROUPS ON THE FLY

Easily create groups in the mobile apps to bulk enter time or clock **IN**, **OUT** and **CHANGE TASKS** for the entire group in seconds.

CLOCK-JUMPING

Employees can clock **IN**, **OUT** and **CHANGE TASKS** on any WorkMax enabled mobile device that is convenient; as the time stamps stream in. WorkMax will automatically "marry" and organize time punches into proper time shifts (**IN**, **OUT** on different devices).

CUSTOM FIELDS (CUSTOM LISTS)

Capture custom field data (UDF custom lists) at the same time as real-time or digital time entry.

ONE TIME SOLUTION FOR YOUR ENTIRE WORKFORCE

Mobile, remote and local office workers can all utilize WorkMax TIME to track their time and attendance in one powerful and scalable solution.

TIME and ATTENDANCE MANAGEMENT

Management access through the web-based WorkMax Control Center.

TIME REVIEW, APPROVE, SIGN-OFF, CLOSE-OUT

The WorkMax Control Center is the hub or primary application where users can review, sign-off, edit, approve and close-out completed time records to prepare and send to payroll, accounting, ERP system, etc. The WorkMax Control Center is web-based; providing anytime, anywhere user access.

FULL TIME ZONE SUPPORT (mobile users working across time zones)

Mobile users can clock **IN** in one time zone and **OUT** in another (same day or shift) and the system will automatically record the time worked properly

PER DIEM

Assign per-diem per employee and mark when they qualify for specific time shifts; per-diem earned time records can then be flagged and exported.

AUTO-LUNCH

Setup "auto-lunch" across any/all shifts including minimum hours worked, proper time to deduct, time specified or end of day deduction.

SHIFT RULES

Setup default shift and day, evening, night shifts (I.E. shifts 1,2,3 completely configurable) including configurable float times.

PAY PERIODS

Ability to handle multiple types of pay periods including weekly, bi-weekly, bi-monthly and monthly, time management can be filtered by pay period.

PAY GROUPS

Pay groups can be setup to achieve flexible time and attendance automation for shift rules, overtime rules, pay codes/rates and pay periods.

OVERTIME RULES

Robust real-time overtime engine with ability to automate all overtime rules including California overtime rules and dynamic overtime setups.

TIME ALLOCATION (CONTROL CENTER)

Capture real-time **INs**, **OUTs** and then quickly break up the time and **TASKs** as they occurred through the day with our visual allocate time feature
