

## Real-Time Workflow

 Individual     Team leader

### Real-Time Clock IN/OUT Options

Individuals can clock IN/OUT or your team leaders can clock IN/OUT team/crew.

### Pro Tip

In WorkMax you do not need to clock in and out of individual tasks. Simply clock IN from one task to the next and WorkMax will automatically clock you out of the previous task allowing your employees to focus on their jobs.

Real-Time

WorkMax Real-Time workflow captures GPS time stamps at clock IN's, task change, and clock OUT's. Allowing your business to get accurate employee time and labor worked in real-time in addition to accurately recording tasks, productivity, and job costs.
