Equipment and Assets

Reduce Equipment Costs

Equipment Management

Maintenance and Repairs

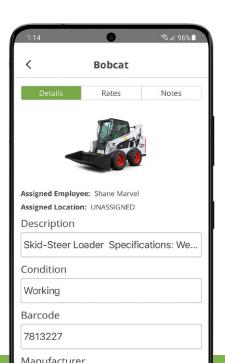

Equipment Checklists

Equipment Usage

Eliminate Equipment Paper Onboarding

Subcontractor Equipment Inductions

Improve Customer Communication

Ensure the cost and life of equipment is optimized for the long run. Manage equipment expenses including maintenance, checklists, usage, license permit requirements, with historical usage attached to workers, subcontractors and qualified operators.

Equipment Management

Simplify equipment and asset management with centralized, historical activity against equipment and assets by project, subcontractor, cost code, location and more. Include Type, Make, Model, Registration, Status, Owned vs Rental Company, Serial Number, Project Details, Service History, Inspections, Associated Workers, Checklists, and Permits.

Maintenance and Repairs

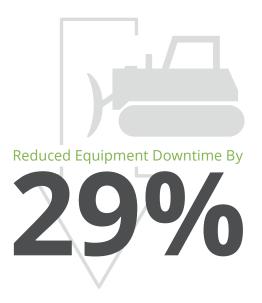

Manage maintenance requests along with maintenance plans for on-field equipment and assets. Include detailed work requirements, running hours, asset condition, workers, and trade partners, estimated and actual work hours, spare part requests, expenses, and other important maintenance information.

Equipment Checklists

Configure equipment and asset checklists to match project requirements.

Equipment Usage

- Time on, meter, condition, etc.
- Equipment and Asset Reports
- Asset Assignment History
- Asset Inventory
- Asset Usage
- Employee Assets + Time
- Employee Assigned Assets
- Location Assigned Assets

Eliminate Equipment Paper Onboarding

Issue digital certificates stored in the cloud and attached to worker, subcontractor, and equipment profiles.

Subcontractor Equipment Inductions

Track and approve Equipment inductions including Details, Status, Project Details, Service Dates, Inspections, and Permits Issued.

Improve Customer Communication

Equipment tracking helps communicate with joint ventures, subcontractors, GC's and Owners. Update stakeholders when equipment is available or delivered.
